

# KAISER'S HATE REPELS BRIDE

## Rejuvenation Treatment Has Wrecked Marriage

### Hermine Revolts at Rages of Hohenzollern

#### German Baron Says Break Is Complete

(BY CABLE-EXCLUSIVE DISPATCH)  
BERLIN, April 12.—The story of Princess Hermine's marriage to the German Kaiser, which was celebrated here today by Baron Hatzfeld, has been a complete failure. The princess, who is a member of the Hohenzollern family, has been subjected to a rejuvenation treatment which has wrecked her marriage. The Kaiser, who is a member of the Hohenzollern family, has been subjected to a rejuvenation treatment which has wrecked his marriage. The princess, who is a member of the Hohenzollern family, has been subjected to a rejuvenation treatment which has wrecked her marriage. The Kaiser, who is a member of the Hohenzollern family, has been subjected to a rejuvenation treatment which has wrecked his marriage.

### FURROWS LINE FACE

"Deep furrows line his face," his wife have become hollow and his hair has turned gray. He is intensely nervous and irritable, and flies into a rage of no cause whatever," the Baron said.

It was the ex-Kaiser's complete disregard for his wife's feelings, and his complete lack of interest in her, which has wrecked the marriage.

"A Careless LIAR is a BUSY MAN." Busy, very busy keeping the account straight. Only a genius of a LIAR can do this. But a LIAR no matter what his skill can never be a BUSINESS MAN. For a business man who LIES doesn't get far. He lies find him out. It's one thing to talk VALUES. It's another to give VALUES. Talking values and not giving values is LYING. We're always talking VALUES and we're always giving VALUES. The proof of it is the tremendous business we are doing in TWO PANTS SUITS. Their sale has surpassed all calculation and keeps us "Johnny on the Spot" regarding the supply of the demand. We're always talking VALUES and we're always giving VALUES. The proof of it is the tremendous business we are doing in TWO PANTS SUITS. Their sale has surpassed all calculation and keeps us "Johnny on the Spot" regarding the supply of the demand.

## Employment Agency Measure Fails by One Vote

### Senator Murphy to Move for Reconsideration

#### Crime Commission's Jail Act Passes House

(BY A. P. NIGHT WIRE)  
SACRAMENTO, April 12.—Two bills by Assemblyman Roy Felton of San Francisco to regulate the fees and operations of private employment agencies in California, failed to pass the Senate today. The vote of 20 to 19 for the legislation fell one short of a majority. Senator Daniel C. Murphy of San Francisco, who led the fight in the upper house for the bills, announced that because the hour of adjournment was at hand and Senator Swing of San Bernardino, who was absent from the capital this afternoon, he would move for the legislation to be reconsidered at a later date.

### WELCOME FOR DR. HARDING

(Continued from First Page)

would break out in full force at the least provocation.

Gen. Julian S. Carr, of Durham, N. C., commander-in-chief of the foreign legion, during a discussion of the term "rebel" as applied to Confederate soldiers, stated that one point, "I am a rebel and Ku Klux too."

J. M. Trout of Jackson, Tenn., stated that he was opposed to anything but law and order. He did not mention the Klan by name and the incident was over almost as soon as it arose.

The discussion of the term "Johnny Reb" and "Rebel" arose with the reading of a telegram by Carr from the Columbia (S. C.) State, adding the statement that Carr had said the soldiers of the Confederate States Army were "rebels."

### NO JOINT REUNIONS

Patheonism reigned at one stage of the afternoon session, when a veteran, with long, snow-white hair and a beard, handed to the secretary a resolution which declared that the ranks of the Gray and Blue were "thinning" fast, and that, accordingly, the veterans should be allowed to hold joint reunions.

One of the speakers declared that the veterans of the Civil War should be allowed to hold joint reunions. He declared that the veterans of the Civil War should be allowed to hold joint reunions. He declared that the veterans of the Civil War should be allowed to hold joint reunions.

### MAKE APPEAL FOR RELIGION

(Continued from First Page)

Here is the first example of the policy. Six hundred members of the league held a reunion in the famous Teller restaurant, one of the swiftest in Pasadena celebration of the success of the Red Cross.

After numerous speeches maintaining its future work, the assembly held a trial of the Pope similar to the trial of Vice-General Backus.

### POPE IS CONDEMNED

Before the "court" the accused was charged by the prosecutor with being a "counter-revolutionary" and with "obscuring adherence to the church and opposing Communism." The Pope was found guilty and sentenced to death.

At the conclusion of the trial, the assembly held a trial of the Pope similar to the trial of Vice-General Backus. At the conclusion of the trial, the assembly held a trial of the Pope similar to the trial of Vice-General Backus.

### WASCO WILL CHOOSE RAISIN QUEEN MAID

(BY CABLE-EXCLUSIVE DISPATCH)  
WASCO, April 12.—The American Legion post of Wasco has taken the lead in conducting a contest to choose an attendant from that place to accompany Miss Marie Girard of Delano, queen of the Raisin Day in Fresno, the 25th inst. The most popular girl of the city will be determined by a voting contest to close the 18th inst.

#### War Department Statement Reassuring

(BY CABLE-EXCLUSIVE DISPATCH)  
WASHINGTON, April 12.—Anti-aircraft defense in the United States is keeping pace with the development of the airplane, despite the enormous strides being made in military aviation, it was revealed in a War Department statement today.

An official report of the work of the Ordnance Department, Coast Artillery and Signal Corps in this connection shows that these arms of the service have been striving every effort to improve anti-aircraft defense.

The project roughly provides for the construction of a road from the port of Suwayda to the Arghana coast, and the road will be a most vital link in the defense of the country.

**BORAH FIRES ON HOOVER'S STAND**  
International Court Gets Rap From Senator

Secretary's Des Moines Talk Brings Criticism  
Inefficacy of "Toothless" Tribunal Shown

(BY A. P. STORY WIRE.)  
WASHINGTON, April 12.—Commenting on Secretary Hoover's speech last night in Des Moines, in which the Commerce Secretary advocated acceptance by the United States of conditional membership in the permanent Court of International Justice, Senator Borah, Republican of Idaho, in a statement declared today that "we should either make it a court with some power to it, with some effectiveness, or we should turn our attention exclusively to the questions which are troubling the American taxpayer and the American business man and the American farmer at this time."  
Mr. Hoover, he said, made a "fair and strong" presentation from the administration viewpoint of the advantages to be derived from joining the court, but indicated in his address that "the only immediate effect of going into the court, so far as getting results from the court is concerned, is to pay a share of the running expenses."

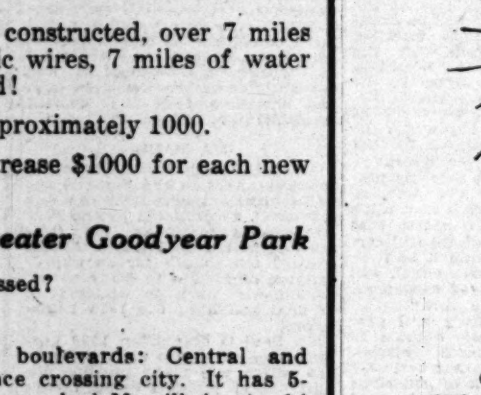

**PAYMENT RIDICULED**  
Referring to Secretary Hoover's statement that "all we do, if we ratify President Harding's proposal, is to promise to pay a share of the running expenses of the court and to take part in the choosing of the judges," Senator Borah asserted that "we cannot take part in the choosing of any judges until 1926, unless some one resigns or dies."  
"When it is boiled down," the Senator added, "the opportunity to be derived is the opportunity to pay a part of the running expenses of a single 'court,' a court which has not been given jurisdiction over any vital matter, because the European powers would not consent for it to have jurisdiction. "Is it so important that we participate in paying the expenses of a court into which no one can go without everybody's consent who is interested, that we should push it ahead of vital questions such as the readjustment of the railroad problem, the adjustment of freight rates, the regulation and control of coal, or the problem dealing with oil and gasoline, or the curtailment of government extravagance, or the rearrangement and reduction of taxes?"

**STRESS HOME PROBLEMS**  
"Will the housewife who sees sugar go up to 10 cents be particularly exhilarated by the consoling fact that she is to have an opportunity to pay a share of the running expenses of a court which has not been given jurisdiction over any vital matter, because the European powers would not consent for it to have jurisdiction. "Is it so important that we participate in paying the expenses of a court into which no one can go without everybody's consent who is interested, that we should push it ahead of vital questions such as the readjustment of the railroad problem, the adjustment of freight rates, the regulation and control of coal, or the problem dealing with oil and gasoline, or the curtailment of government extravagance, or the rearrangement and reduction of taxes?"

**WIDE DEMAND FOR WORKERS**  
Unemployment on Decrease, Government Says

Shortage of Farm Laborers Feared in West  
Reduction of Idle Men Noted in Los Angeles

(BY A. P. STORY WIRE.)  
WASHINGTON, April 12.—An analysis of the industrial employment situation during March, made public today by the Department of Labor, indicates a "healthy and robust condition" marked by the prospect of a steady decrease in unemployment in every section of the country.  
The expansion of nearly all industries which featured February continued last month, with increased demands for all classes of labor. The building trades show the greatest boom.

**FARM LABOR WANTED**  
One of the outstanding features of the employment situation in March, the department said, was the increased and widespread demand for competent farm labor resulting from the resumption of agricultural activities. In some sections the supply was short and, from present indications, the shortage may reach serious proportions, particularly in the Far West.  
Spring thaws and the breaking up of winter have resulted in the resumption of road building, with the employment of nearly all the common labor available. A shortage of this class of labor for some States as the spring advances was predicted.

**LIQUOR DISTRIBUTION IS PUZZLING OWNERS**  
DRY DIRECTOR MAY RESIGN AFTER SIGNING PERMIT; \$250,000 INVOLVED  
(EXCLUSIVE DISPATCH.)  
CHICAGO, April 12.—Distribution of liquor worth \$250,000 to stockholders by the dissolving firm of Grommes & Ulrich, is causing much anxiety on the part of the stockholders, and may result in the resignation of Roscoe C. Andrews, acting Federal prohibition director for Illinois, who signed the permit under which the liquor was distributed.  
There is anxiety among the recipients of the liquor over the prospect that they may lose their supplies. The government has a list of the recipients and the amount assigned to each and this will be turned over to a Federal grand jury. The list includes a number of prominent society folk, politicians and clubmen.  
In the application for removal of the liquor, each "stockholder" made affidavit that he or she owned the liquor prior to 1920, when the prohibition time limit became effective, but examination of these affidavits show they are so carefully worded that the signers cannot be prosecuted for perjury.

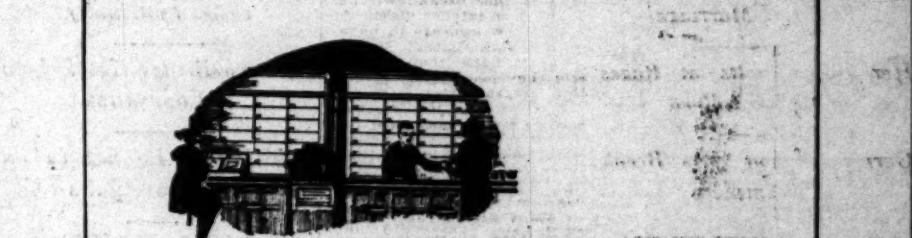

**HARVEY TO STUMP FOR NEW COURT**  
Ambassador Coming Home to Manage Campaign for World Tribunal  
(BY CABLE-EXCLUSIVE DISPATCH.)  
LONDON, April 12.—The American Embassy here last night confirmed a report from Washington that Ambassador Harvey will go to the United States shortly on leave to manage President Harding's campaign to bring the United States into the International Court of Justice. The same thing was implied in guarded answers by others.  
It is impossible to learn whether Harvey expects to return to London as Ambassador, that largely depending on developments in America.  
Harvey, who is now in Norfolk studying the farm hands' strike, will be accompanied by Mrs. Harvey, his daughter, Mrs. Marcellus Thompson, and his grand-daughter Dorothy Thompson.

**GOV. HUNT SILENT AS EXECUTION DAY DAWNS**  
MURDER CONVICT EXPECTED TO PAY PENALTY TODAY IN ARIZONA  
(EXCLUSIVE DISPATCH.)  
PHOENIX, April 12.—Private Secretary McCloskey at the Governor's office stated this evening that he had no knowledge of anything that might intervene to stop the execution at Florence tomorrow of Paul V. Hadley, convicted in Tucson of the murder of Mrs. Anna Johnson on the desert, west of Yuma in November, 1921. The Board of Pardons had reported against clemency, but there had been expectancy of a surprise, as Gov. Hunt and Penitentiary Warden Simms in the past have saved the life of at least one in similar plight. Executions in Arizona are at the State prison.  
In a fight in the City Jail today, Manuel Roto received cuts about the head and body that have sent him to the hospital, and Jailor Bowers was slashed across the wrist. Jose Reyes is in solitary confinement. Armed with a razor that had been smuggled into the jail, Reyes attempted to square accounts with Roto, with whom he had been jailed on a Federal charge.  
A public reception today was tendered at Mesa to Towns High School basketball team, recently returned from Chicago, where it won the first game in the elimination trials for the national championship, beating Macon, Ga. Thereafter it fell under the Trier team of Chicago.

**Tammany Hall Leader Reveals Business Loss**  
(EXCLUSIVE DISPATCH.)  
NEW YORK, April 12.—Details of how Charles F. Murphy, leader of Tammany Hall, ventured into the glucose business in 1918 in hope of making large profits and then became involved in numerous difficulties when his expectations failed were told at the opening of his suit for \$115,000 against Louis W. Hartog before Supreme Court Justice Davis and a jury yesterday. Murphy invested the money in the North Kensington Railway Company, of which Hartog had been sole owner, to finance a contract for nearly \$7,000,000 worth of malto-dextrine, a glucose product to be used in manufacture of beer for British soldiers. The Tammany leader asserts Hartog caused the concern to break up, and brought suit to recover his investment.

**ITALIANS STUDYING DEBT TO AMERICA**  
(BY CABLE AND ASSOCIATED PRESS.)  
ROME, April 12.—The Italian government, according to an official statement issued today, is carefully studying the question of war debt to the United States, and has even gone to the extent of exchanging views with the other debtors of America, especially France, although no general agreement between such debtor nations and the United States is anticipated.

# Stanford Presents Strongest Lineup of Season Against Conference

## ASHMORE IN BOUT WITH MCGOVERN

Fighting Lightweights Will Box in Feature Event at Hollywood Tonight

An ideal match is what Matchmaker Frank Crowley terms the Ashmore-McGovern bout. The two fighters, who will meet in a ten-round bout at the Hollywood Casino tonight, are both in excellent condition. Ashmore, a former champion, is expected to be a formidable opponent for McGovern, who is a rising star in the sport.

Stanford's new star, Marshall Hale, is expected to be a formidable opponent for McGovern, who is a rising star in the sport. Hale, who is a former champion, is expected to be a formidable opponent for McGovern, who is a rising star in the sport.

## CARDINALS A BIT WORRIED

Four Stars Will Compete for First Time

Marshall Hale Tangles With Argue in Sprints

Northerners Think They Will Win the Meet

BY WILLIAM F. LEISHER

STANFORD UNIVERSITY, April 12.—With the arrival here today of the Southern California Conference track and field squad, the Cardinal cohorts are beginning to sit up and take notice. If the records of the southerners are not exaggerated, tomorrow's scramble looks like anybody's victory. And Stanford is prepared to enter the strongest team that has represented the farm this year.

Marshall Hale, Stanford's new star, who has not been seen in action since the arrival of the Southern California Conference track and field squad, the Cardinal cohorts are beginning to sit up and take notice. If the records of the southerners are not exaggerated, tomorrow's scramble looks like anybody's victory. And Stanford is prepared to enter the strongest team that has represented the farm this year.

## SPORT SHARPER

HARRY A. WILLIAMS

Some of our good Northern contemporaries are good-naturedly pointing the finger of mild derision at the opening day attendance in Los Angeles.

Here somewhat less than 8000 fans saw the first game, whereas Sacramento drew 15,000 while the crowd in San Francisco was estimated at about 16,000.

Perhaps one reason for these two cities would be less than human if they failed to note and proclaim our apparent shortcomings on the first day of the season. After all, perhaps the best reason for the lack of interest is the fact that the following Sunday, the first day of the season, the Southerners will be expected to give a better performance than they did today.

Just to show what a difference time can make, the Southerners, who were supposed to be a better team than the Cardinals, have improved at such a rate that it would not be surprising if the Cardinals finished in second place.

Lincoln placed men in the hurdles, 110, pole vault, quarter and relay at the track yesterday. As the Lincolnites boast of a host of good men in the weight events and broad jump, they may grab the runner-up spots.

Field Thompson, winner of the 440 last year, and expected to cop the one-lap event tomorrow, may not be able to run in the finale because of a cold. Thompson, who suffered in the heats Wednesday, said he is certain not to run tomorrow. He also pulled a tendon in the heats.

Both men will kill the Pioneer's chances for a win, and will also practically ruin the L. A. High relay team.

One of the feature events in tomorrow's meet is the 100-yard dash, in which nine speedy men will be entered. Polytechnic, who won the 100-yard dash at the Los Angeles meet, is expected to be a strong contender.

Archibald, who won the 100-yard dash at the Los Angeles meet, is expected to be a strong contender. He is expected to be a strong contender.

## HOLLYWOOD IS DOPED TO WIN

Injuries Almost Ruin Hopes of Pioneer Squad

Lincoln Figured to Finish Close to the Top

Half-Mile Run Should Bring Out Fast Time

Coach Bill Page's chances of developing a championship track squad out at Hollywood High right now are about as rosy as a poet's conception of dawn. Injuries to many of the squad, which Coach Page has been unable to get out of the hospital, are expected to be a major factor in the team's performance.

Just to show what a difference time can make, the Southerners, who were supposed to be a better team than the Cardinals, have improved at such a rate that it would not be surprising if the Cardinals finished in second place.

Lincoln placed men in the hurdles, 110, pole vault, quarter and relay at the track yesterday. As the Lincolnites boast of a host of good men in the weight events and broad jump, they may grab the runner-up spots.

## PREP TRACK SQUADS IN TWO MEETS

Annual San Fernando Tilt Attracts Many; Bay League Meet Tomorrow

Two classy prep track meets will be held in the general public tomorrow afternoon and both are expected to bring out some fast times and close competition.

The Tenth Annual San Fernando track and field meet, in which squads from as far north as Big Pine and as far south as San Diego are entered, is holding most of the highlights. Coach Ray Walker, who has been coaching the team for many years, is expected to be a strong contender.

Just to show what a difference time can make, the Southerners, who were supposed to be a better team than the Cardinals, have improved at such a rate that it would not be surprising if the Cardinals finished in second place.

Lincoln placed men in the hurdles, 110, pole vault, quarter and relay at the track yesterday. As the Lincolnites boast of a host of good men in the weight events and broad jump, they may grab the runner-up spots.

## ARMY POLOISTS ANNEX HONORS

Fort Bliss Four Captures Del Monte Statue

Defeats Del Monte Quartet by 7-4-5 Score

Captain Craig Individual Star of Contest

(EXCLUSIVE BUREAU)

DEL MONTE, April 12.—The Army continued its triumphal march on the polo fields. Fort Bliss captured the Del Monte statue, the high goal handicap in the Coast polo championship today, defeating Del Monte in the final match, 7 to 5. This makes a clean sweep for the Army of the event.

Fort Bliss was given to handicap of two goals and got the jump right from the start. Maj. Red Erwin was attacking up the long ones and Capt. Gay, White and Craig were getting on the ball with equal regularity.

DEL MONTE'S OFF. The locals were having trouble in lining out and Eric Pedley, the star hitter, was off in his mallet work. He was marked by his opponents throughout. Hugh Drury was forcing the ball, but he never in the series of falls on Tuesday and Dick Scherwin was covering the backfield well.

In the seventh, Fort Bliss was leading, 7 to 5, and looked to have a walkover. Del Monte then launched a rally. Drury started to feed the ball out of the scrimmage and Pedley took care of his guards to lose some scoring good shots. Harry Hunt was active in getting on the ball. Three scores came in rapid succession and they were running the Army pretty hard at the ball.

Del Monte continued to attack the eighth, but could not get a goal. Maj. Erwin suffered a fall in the last minutes of the game and hurt his leg, but he remained play.

CAPT. CRAIG STARS. Capt. Craig, who has shown the class of the number ones in the tournament, staged the best individual play of the day. In the sixth, he picked up the ball in front of his own goal line and raced the length of the field for a score. It was sensational as Del Monte had the ball to hit a horse two or three times in the last minutes of the game and he was directly in front of the goal.

The Hawaiian Islands and the Cardinal freeholders meet tomorrow in the semifinal match of the championship. The winner will meet Del Monte on Sunday for the title.

BARBER MAKES A HOLE IN ONE. (Continued from First Page)

Wally Hood opened ninth with his second hit, a center-field single. Krug followed with a run to left. Runners on first and second. This brought Jimmy McAuley to plate. Jimmy, in a sudden slump, had in two days been up seven times with men on base without scoring anything. This time he shook the flax with a bunt to left of box. Shellback fielded the ball, took for first, and then doubled Lindy at first. Score: 2-0.

## LICK DIRECTOR'S REPORT RAPPED

Einstein Claims Attached by  
Navy Star-Gazer

Newton and German Credited  
With Discovery

Charge of Downright Theft  
in Berlin Quoted

(BY A. P. NIGHT WIRE)  
VALLEJO (Cal.) April 12.—A statement saying that he "vigorously contested" an announcement made last night by Dr. W. W. Campbell supporting the Einstein theory of relativity was made here today by Capt. T. J. J. See, professor of astronomy in the United States Navy and government astronomer at the Mare Island Navy Yard. Dr. Campbell, director of Lick Observatory and president-elect of the University of California, said that photographs taken by him during a recent solar eclipse proved that the Einstein theory was correct.

Regarding the Campbell statement, Prof. See says: "The celebrated English physicist Henry Cavendish (1731-1810) calculated the effect of Newton's theory that the corpuscles of light are bent toward the sun in passing near it, and in 1801 Dr. J. Von Soldner, a German physicist of eminence in his day, actually derived the formula recently used by Einstein. This was 122 years ago. Einstein never once mentions Soldner in his writings. This is bad enough, but the worst is yet to come."

**ERROR COPY CHARGED**  
"It has been shown by Prof. Genzeke, director of the Imperial Physical and Technical Institute of Berlin (a position first filled by Helmholtz), and by Prof. P. Leonard of Heidelberg, winner of the Nobel prize in physics, that Soldner omitted a certain factor in his formula of 1801, which error Einstein also copied when he appropriated the Einstein-Soldner formula in the Einstein paper of 1911. In a subsequent paper to the Berlin Academy of Sciences, 1911, Einstein camouflaged this fraud as best he could, yet could not prevent its discovery and exposure by Prof. Leonard of Heidelberg, Genzeke of Berlin and Westin of Stockholm."

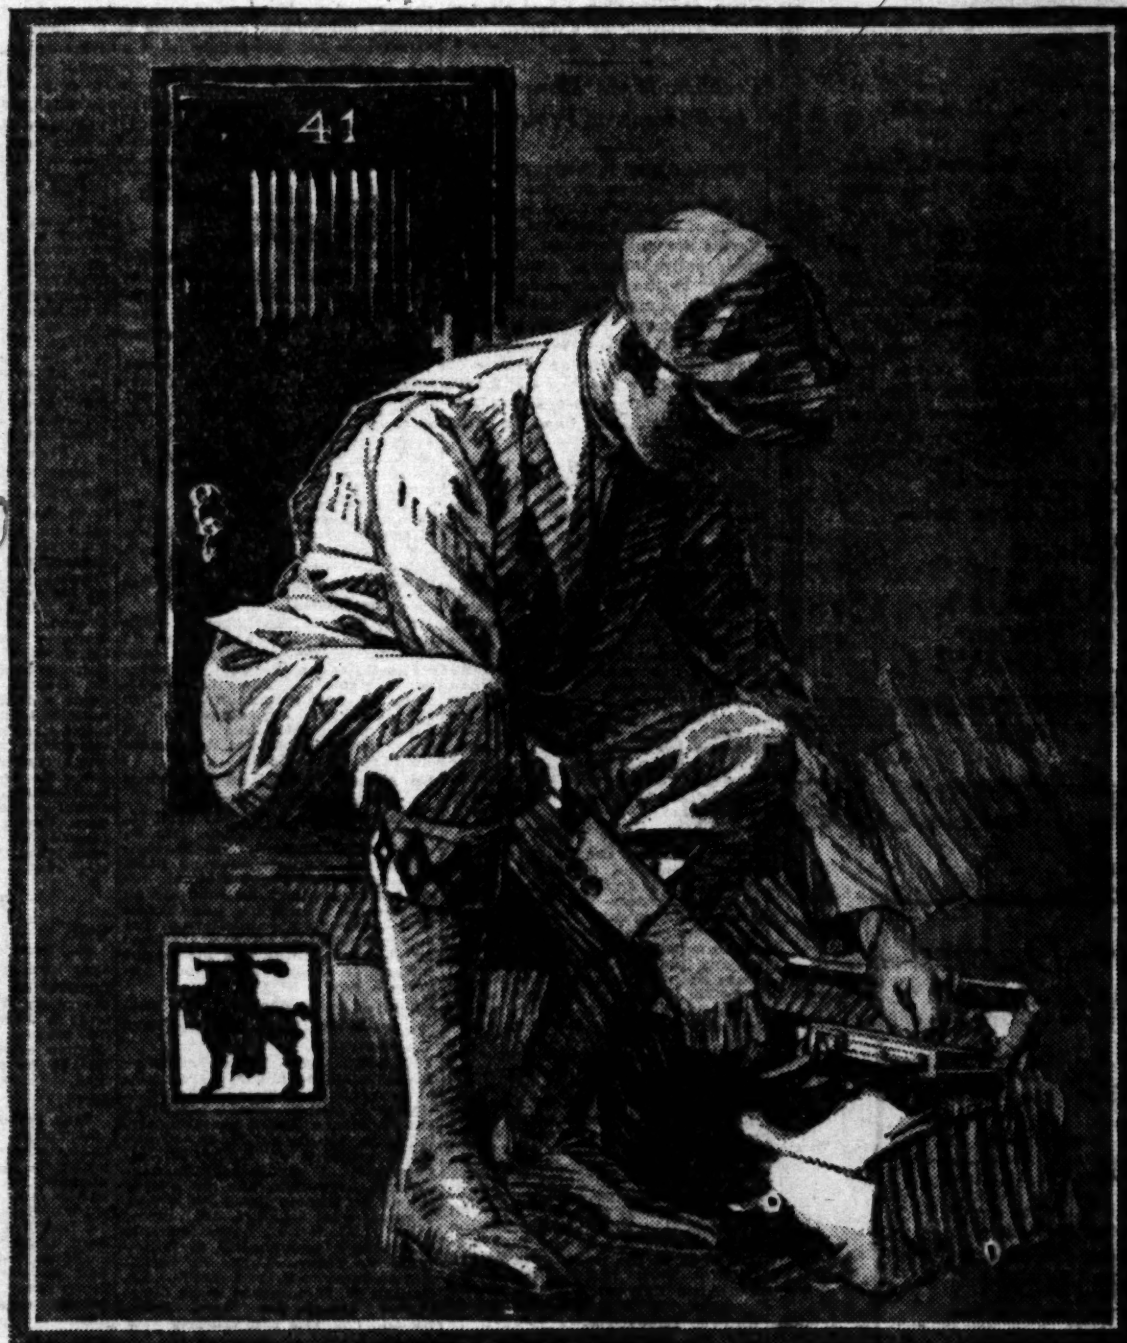

"Prof. Westin charges Einstein with downright plagiarism, saying: 'From these facts the conclusion seems inevitable that Einstein cannot be regarded as a scientist of real note; he is not an honest investigator.' This Westin protested to the directorate of Nobel foundation against the reward of Einstein."

**HONOR WITHHELD**  
"For these and other reasons the Swedish Academy of Sciences refused Einstein any recognition of the theory of relativity. Let this fact be plainly understood in considering the Newton-Soldner refraction of starlight deduced from the eclipse in Australia. The value of the eclipse observations is recognized, but the refraction of the starlight redounds to the credit of Newton-Soldner, not of Einstein."

**NEWTON GIVEN PALM**  
"Everybody from Shyugena, Newton, Herschel, Maxwell, Helmholtz, Haeckel, Lord Kelvin, Poincare, to our own Michelson knows very well that the ether does really exist and act with forces equivalent to the breaking strength of millions of immense cables of the strongest steel, for holding planets in their orbits. Without the ether for pulling the planets about the sun, Newton knew perfectly well that the planets would fly the tangent, like water thrown from a revolving grist-stone, and thus our whole universe would come to wreck in a very little while. The order of the solar system would not endure a month."

**RILEY WILL APPEAL**  
**RECLAMATION CASE**  
**STATE CONTROLLER TO CARRY ACTION TO HIGH COURT AFTER LOSING PLEA**  
(BY A. P. NIGHT WIRE)  
SACRAMENTO, April 12.—In view of the recent action of the Third District Court of Appeal in denying his application for a rehearing, State Controller Riley today announced that he has decided to carry to the State Supreme Court on appeal the case involving the payment of approximately \$1,000,000 to Reclamation District No. 1500, Sutter county, for settlement in part of levees built by the district and taken over by the State Reclamation Board as part of the Sutter by-pass project. About a month ago the Appellate Court, on a petition of the district, issued a writ of mandate ordering Riley to issue warrants in payment of the \$1,000,000 claim, but Riley said he decided on the appeal because of the involved condition of the project, and because of the actions now pending in the Supreme Court for the purpose of testing the legality of the assessment and bond issue which have been authorized in connection with the reclamation work.

**BEACHED SCHOONER LOST**  
(BY A. P. NIGHT WIRE)  
SEATTLE, April 12.—The schooner Robert Lewers, which went ashore near Pachena Point, Vancouver Island, late yesterday will be a total loss, according to advice received here. The vessel was said to have broken in two.

### RAILWAYS PLAN ON GREAT FIGHT

Faced by Heaviest Traffic in Their History

Still Hampered by Federal Attempt at Control

Problem More Acute by Widespread Prosperity

BY ROBERT B. ARMSTRONG

(EXCLUSIVE DISPATCH)

WASHINGTON, April 12.—Railroads of the United States are preparing for the greatest fight in their entire history. Still handicapped by the experiments of government control and handicapped by a determined combination of radicals to revise the transportation act in the coming session of Congress the roads face the greatest amount of traffic ever handled by transportation lines in this country.

For the period of thirty-seven weeks from July 1, 1922, to March 17, 1923, all transportation traffic records have been broken and the capacity of the carriers has been taxed in months which do not include the peak of crop movement.

From every section of the country calls for additional equipment for the movement of construction materials and other measures of prosperity indicate that the records of the last weeks will be exceeded by those of the summer and fall of this year. Every railroad executive is alert to prevent any delay or interruption in the increasing traffic and especially to prevent by every means of traffic and equipment preparation, a car shortage at the peak of the coming season, like this summer and fall.

RESULT OF FAILURE

In addition to the desire to prove the efficiency of private administration of the railroads and get for the stockholders the freight and passenger revenue the railroad managers realize that a breakdown in transportation will mean a crushing blow to the economy of the country.

Each-Cummins Act under which the railroads are now being operated.

Neither the executive at the head of the great railroad systems nor the leadership in Washington have any illusions. The transportation problem is one of the greatest before the country. With growing and widespread commercial activity and generally distributed prosperity the problem becomes acute both from a national standpoint as well as from a strictly transportation standpoint. This is the real motive back of the resolutions passed in New York last week by the American Railway Association and approved by the Association of Railway Executives.

HUGE SUM SPENT

Preceding the passage of the resolutions to clear all decks for action it was shown that during 1922 the railroads had spent \$440,000,000 for new equipment and trackwork and for the year 1923 the colossal sum of \$1,100,000,000 had been authorized and contracts let for that amount of improvements. The \$440,000,000 already spent was divided thus: For cars, \$200,000,000; for locomotives, \$45,000,000; and for track and other facilities, \$195,000,000.

For 1923, \$515,000,000 will be spent for cars, \$150,000,000 for locomotives and other facilities, and \$315,000,000 for track and other facilities.

Not only have the executives ordered billion and a half of additional facilities but in the resolutions passed they declared for a preparation in repairs and overhaul rarely seen in this country for both rolling stock and motive power. The resolutions on this point are brief but to the point.

"That by Oct. 1, 1923, when the peak movement ordinarily begins, cars awaiting repairs be reduced to the normal basis of 5 per cent of the total equipment of the country."

"That by Oct. 1, 1923, locomotives awaiting heavy repairs be reduced to the normal basis for the entire country of 10 per cent."

"That the total cost be stored for railroad use complete the storage requirements by September 1, so that after that date the equipment and other transportation facilities may be used to the greatest extent for commercial purposes."

"That the use of power and equipment for railroad construction and maintenance purposes be restricted to the minimum after September 1, in order that a maximum of power and equipment may be available for commercial purposes."

"That railroads in producing and consuming sections improve upon all interests, necessary for moving coal in largest possible quantities in season; that railroads serving upland lake ports carry on campaign for early purchase and shipment of coal from the upper lake docks points of consumption."

### NOTICIAS MUNDIALES DE ULTIMA HORA

En chequeo a nuestros numerosos amigos de habla española, y para beneficio de los lectores americanos del Times que estudian esa lengua, publicamos diariamente esta columna en castellano, con un extracto de las más importantes noticias de última hora.

Un conocimiento práctico del español es de grandísima utilidad en este país, especialmente en el comercio; como lo demuestra el hecho de que en Los Angeles solamente hay más de 15,000 personas que estudian ese idioma con profesores oficiales o particulares. Para esos estudiantes será un buen ejercicio leer todos los días esta sección, donde encontrarán las palabras y frases más usuales del lenguaje español.

**FIND BODY OF MISSING MAN****Gas-Filled Room in Vacant House Sepulcher****J. S. Ackerman Disappeared Two Days Ago****Nation-Wide Search Had Been Started**

(SPECIAL DISPATCH) SAN DIEGO, April 12.—The body of John S. Ackerman, for many years active in the business life of this city, having been twice president of the Chamber of Commerce, was found late today in a gas-filled room in a house whose tenants had been away for two days and to which he went to see that a lawn was kept watered.

His relatives had searched for him since about 2 a. m. yesterday, when he left his office in a sporting goods store, saying he would return in half an hour.

There was a slight wound on his forehead, which Deputy Coroner Shea said may have been caused by hitting the gas jet, from which gas was escaping freely.

Mr. Ackerman was last seen, so far as is known, at a luncheon in honor of Maj. Gen. John A. Burns, United States Marine Corps, at the Cuyamaca Club, Rear-Admiral Roger Welles, commander of the Eleventh Naval District, is so far as is known, the last person to have seen him. Where he went after the luncheon, the investigating officers, so far, have been unable to discover.

**MOVEMENTS MYSTERY**

He did not return to his office, Mr. Ackerman left his office at the Cuyamaca Club, of which he was president, at 5:15 a. m. Wednesday, saying he would return in half an hour. He had a business appointment at 9, but failed to keep it.

At 1:20 p. m. the police were able to learn, he was seen leaving the First National Bank Building, his movements between that time and the time of his appearance at the Levee luncheon have not yet been traced.

**TULARE RANCHER MISSING**

(SPECIAL DISPATCH) TULARE, April 12.—Complete mystery still surrounds the disappearance of Fred Allen, ranchman of this city, on Friday night, last, while on a night ride to Tulare for medical aid after a fall from a horse. It was feared that the blaze would spread to the hotel in which there were many guests.

One man in the rear of the ambulance was killed, and another was injured. The ambulance was driven from the hospital by Mr. and Mrs. Walter Taylor and Mrs. Davis and daughter, Mr. and Mrs. Doubleday and Mrs. Jackson and two daughters.

**CLOTHING IS STOLEN****Thieves Believed Here With Loot From Santa Barbara Store**

(SPECIAL DISPATCH) SANTA BARBARA, April 12.—Somewhere concealed in Los Angeles, the police believe, are 120 to 200 high-grade suits stolen during the early morning hours in a \$4000 haul from the clothing store of Loomis and Lowe.

The robbery was not discovered until the morning of April 12, when a man hunting a burglar who had broken into the John E. Seal place on East Boulevard, saw a high-topped car racing south.

The thieves gained entrance to the store by sawing bars over a skylight. The store was mentioned in the proposed deal.

That Santa Barbara wants to see the case through to the end is shown by statements among the business men.

**SENTENCED TO HANG****Outraged For Fresno Man to Ask Executive Clemency**

(SPECIAL DISPATCH) FRESNO, April 12.—Mauro Patis, 25 years of age, today heard Superior Judge S. L. Strother condemn him to be hanged at San Quentin at 10 a. m. June 29, for the murder of Felix Paladino in Fresno last summer.

Partial was convicted of first-degree murder last fall and appealed his case on the ground that the conviction should have been for manslaughter. He said he shot Paladino to death after the latter had attacked him with a pistol. Witnesses testified that the shooting of Paladino was unprovoked.

Pronouncing of sentence that a crowd of the county was present. Because of intense feeling aroused by the case, the officers of the county were prepared for any emergency. Twelve Deputy Sheriffs were distributed in the crowd of spectators and Sheriff W. F. Jones himself acted as bailiff.

W. D. Crichton, counsel for Patis, announced that he will ask the Governor for executive clemency.

**MOTHER WINS BOY MERCY**

(SPECIAL DISPATCH) SANTA MONICA, April 12.—Because his mother is suffering from nervous shock, Nelson M. Harris, who was arrested last week for speeding at the rate of fifty miles per hour, will not have to spend ten days in jail. Harris appeared in court today for a hearing on a petition for mercy, which was granted by the judge. The judge found that the mother of the boy, who was arrested, was suffering from nervous shock and that the boy was a good child.

**JONESLESS CITY IS DISCOVERED****California Community Short on Smiths as Well****Found, a Jonesless community!**

(LOCAL CORRESPONDENCE) BLITHES, April 12.—Found, a Jonesless community! Blithes, Cal., a city of 1600 souls does not contain a Jones or a Smith.

These names, persons who, according to government reports, furnished a division or more of soldiers for the cause of democracy, missed Blithe in their quest of the Jonesless community. The Palo Verde Valley Chamber of Commerce which includes Blithe and the surrounding country in its membership of almost 600 does not carry a Jones or a Smith on its roster.

In spite of this big handicap the chamber has just organized and is launching a strenuous campaign for the betterment of the community. Whether or not that campaign for betterment includes the importation of Joneses and Smiths has not been announced by the secretary.

**APARTMENT DESTROYED BY FLAMES****Four Families Are Driven to Street in Night Clothes at Bakersfield**

(SPECIAL DISPATCH) BAKERSFIELD, April 12.—Damage estimated at \$7000 was caused by flames which at midnight totally destroyed an apartment house in the rear of the Florence Hotel, Twenty-first street, causing four families to be homeless and creating widespread excitement.

It was feared that the blaze would spread to the hotel in which there were many guests.

One man in the rear of the ambulance was killed, and another was injured. The ambulance was driven from the hospital by Mr. and Mrs. Walter Taylor and Mrs. Davis and daughter, Mr. and Mrs. Doubleday and Mrs. Jackson and two daughters.

**CONVALESCENTS BATTLE FLAMES****Patients Aid Attendants in Sanatorium Fire****Building at Bakersfield Is Slightly Damaged****Instrument Room and Main Ward Untouched**

(SPECIAL DISPATCH) BAKERSFIELD, April 12.—Only by the heroic efforts of hospital attendants led by Dr. E. A. Schaper and aided by convalescents, was the Stonybrook Sanatorium saved from being destroyed by fire yesterday, when flames were found bursting through the storeroom. While the exact cause of the fire has not yet been determined, it is believed that the fire originated in the diet kitchen, and spread from there to the storeroom between the two main wards of the institution.

With excellent fire-fighting equipment and a high water pressure the corps of attendants were able to cope with the flames, and before it had spread to the wards, where forty-six patients are at present confined, the fire was under control.

**PATIENTS AID**

Aiding in the work of fighting the flames were a number of convalescent patients. They gave valuable assistance to the other fire fighters. While no estimate was available today, it is believed that the damage will not exceed \$10,000.

At no time was the life of any of the patients jeopardized, according to a statement by Dr. Schaper, although arrangements had been made for their removal in event the flames threatened to spread to the ward building proper. Valuable instruments in the X-ray room and laboratory are understood to have been undamaged.

**FEAR WILD BEASTS****Santa Barbara Is Excited Over Animal Ranch Rumor**

(SPECIAL DISPATCH) SANTA BARBARA, April 12.—A shudder has run through the community by reports that Los Angeles and New York capitalists are negotiating for the purchase of San Marcos Ranch, bordering the tortoise reserve, with the view of forming it into a preserve for the wildest of wild game, such as lions, tigers and the like.

It is said, the prospective purchasers were riding over the ranch and saw a lion in the brush to fence it in to keep the public out of danger.

One Santa Barbara man asserts that the lion was a Viagrapl move and that Albert Smith's name was mentioned. A site for a Viagrapl move was mentioned in the proposed deal.

That Santa Barbara wants to see the case through to the end is shown by statements among the business men.

**STABBED DURING ROW****Knife Wielder Hunted; Man May Die of Wound**

(SPECIAL DISPATCH) FRESNO, April 12.—John Pogue, 23 years of age, of 3319 Belvoir street, was probably fatally wounded with a knife today and the police are looking for R. J. Murphy, who is believed to have been the assailant. The man was stabbed in the back and the wound is believed to be fatal.

The officers here at the time of the burglary, had been summoned to the Seal home and there they arrested Fred Waddell, alias Francis Davis, who confessed to passing the stolen goods and sealing a large quantity of jewelry. All this was recovered. The prisoner informed that the robbery was on parole from the penitentiary at Florence, Ariz.

**OKLAHOMANS TO PICTO**

(SPECIAL DISPATCH) LONG BEACH, April 12.—Former residents of Oklahoma and visitors from that State will gather for the number of several thousand on Saturday, the 21st inst., for an all-day picnic and outing at Bixby Park. It is announced that a program is being worked out by a committee of former Oklahoma residents now residing in Long Beach. The program is being worked out by a committee of former Oklahoma residents now residing in Long Beach. (LOCAL CORRESPONDENCE) SANTA ANA, April 12.—Acting on the tip that a certain dog belonged to a bootlegger prohibition officers today followed the animal to an abandoned gun club, where it proved itself to be a real booze hound by lapping up the liquid spilled on the floor and lapping mash from the containers.

**LONG BEACH FACES SUIT IN FUND USE****City Is Warned Not to Build Fire Station Out of Oil Royalties**

(SPECIAL DISPATCH) LONG BEACH, April 12.—Injunction proceedings will be started against the city if it persists in its proposal to use revenue funds for the construction of a new fire station here, E. C. Redman, president of the Affiliated Improvement Associations, announced today.

The announcement followed the publication of a plan by the City Council to use funds derived from the sale of oil royalties for the construction of a new fire station at Fifth street and Alamitos avenue. Mr. Redman declared that the city, land on which the oil wells are located was purchased for the water department and all revenue from this land must therefore be used for the improvement and extension of this department.

At the same time it was announced at the City Hall that the city's royalties for the fiscal year ending June 30 will exceed \$400,000, or more than 25 per cent higher than the year before. The city's royalties for the year ending June 30 will exceed \$400,000, or more than 25 per cent higher than the year before.

**Interest Is Keen at Flower Show for Iris Trophy**

(SPECIAL DISPATCH) REDLANDS, April 12.—Keen competition at the Flower Show which is to be conducted on Friday and Saturday in the arcade of the Redlands station here, is in the iris class. In the past two or three years the growing of iris has become popular with gardeners. Redlands is the center of the competition in the iris class. The premier award in the iris class will be a bronze medal offered by the American Iris Society. Redlands is the center of the competition in the iris class.

**OLD RESIDENT DIES****Hanford Pioneer Was Formerly Miner in Klondike**

(SPECIAL DISPATCH) HANFORD, April 12.—John Henry Dawson, pioneer farmer of the county and for several years a miner in the Klondike, died at his residence in this city this morning. He was 89 years of age. He had been a resident of California for 40 years. He was a pioneer farmer and for several years a miner in the Klondike.

**CHAMBER'S OFFICERS CHOSEN AT MEETING**

(LOCAL CORRESPONDENCE) SOUTH PASADENA, April 12.—L. S. Randall, manager of a grocery store, was elected last night president of the Chamber of Commerce for the coming year. Other officers chosen were: Vice-president, Joseph Moore; Secretary, Joseph Moore; Treasurer, Joseph Moore.

**SANTA BARBARA ELKS PLAN INDUSTRIAL SHOW**

He was driving at speed of about twenty-five miles an hour. He was driving at speed of about twenty-five miles an hour.

**FRENCHMAN FLEECED OF HIS SAVINGS****Treasure Box Left With Him by Strangers Held Old Newspapers**

(SPECIAL DISPATCH) LONG BEACH, April 12.—An old-time American, swindle salad was served up with French dressing to Henri Merau, a Frenchman, living at 237 Cedar avenue, this week. As a result, Mr. Merau reported to police today that he is out \$557.

On Tuesday Mr. Merau said he met a man who spoke French fluently and was familiar with the French city from which Mr. Merau came. The man quickly became his friend.

Yesterday, Mr. Merau said he went downtown with his new friend, and as they stood on a corner, conversing in French, a third man came up, and offered them politely in French, said: "It is delightful to meet fellow countrymen. Perhaps you can help me. I have \$17,000 to distribute to the needy poor of Long Beach. Do you know where it can best be put?"

Mr. Merau said he gave several suggestions and finally the benevolent stranger said: "I believe I will intrust the money to you. I am a good faith. I shall ask you to put in also a sum of your own."

Mr. Merau said he went to the bank with the two men, and drew out his entire savings, \$557. The man placed the money in a box, and turned over to him. Today, at the time he was to meet the two men, he opened the box. It was filled with old newspapers.

**WIDOW OF SAID OFFICIAL****Mrs. Eve Steenburgh, First Pension Case**

(SPECIAL DISPATCH) SAN BERNARDINO, April 12.—Living in poverty and with a special emergency fund of \$1000, Mrs. Eve Steenburgh, widow of a former official of the United States Pension Office, is appealing for aid. She is appealing for aid.

**New Courses Are Planned at Redlands**

(LOCAL CORRESPONDENCE) REDLANDS, April 12.—The University of Redlands is planning the addition of two popular courses the coming year, according to President Leroy Duke.

One of these will be a complete course in physical education. The other will be a course in commercial theory and practice.

The two courses have come from a popular demand for such work. President Duke says that the physical department will be enlarged to meet the demand for such work.

## Undertaken in the Greatest Seriousness

Man who till the soil are generally men of sober purpose. Their investment in their property usually represents the greater part, if not all of their worldly possessions, and they safeguard it zealously.

They know what they are about when, as an irrigation district they pledge their holdings as security for an issue of irrigation bonds. They know that the improvements made possible through such financing will render their property far more productive and valuable.

Other elements of safety are the fact that the obligation is distributed generally among a considerable number of individual farmers, and also that the Irrigation District in California is a State agency with the power of taxation to provide for the payment of interest and principal on its bonds.

In addition, there is always an adequate equity in physical property that gives the other necessary element of safety. These considerations place a good IRRIGATION BOND high in the esteem of the seasoned investor.

A good example is the Thermalito Irrigation Dist. It's selling to yield 5 1/2%

## NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE)

NEW YORK, April 12.—Today's stock market opened irregular, turned dull on a subsidence of selling pressure on the oil group and then strengthened materially in response to a buying demonstration in rubber, independent steel and a few selected industrial specialties in the last hour. Other financial and commodity markets also showed an improved tone, wheat, corn and sugar prices mounting to new high records for the year while cotton opened strong but forfeited a good part of its gain before the close.

Failure of the average to break through their lows of last week and the relatively small amount of forced liquidation resulting from the recent professional attacks convinced many market observers that the secondary reaction, which has been in progress for several days, had run its course. Most of the large commission houses reported buying of selected stocks on today's reaction, and many orders from these sources were reported in the late dealings.

Oil shares, which were the hardest hit in the recent wave of selling, were the first to recover. The early gains ranged from 1 to 2 points but many of these were shaded later when the Ohio Oil Company announced a cut of 10 cents a barrel in crude prices. Among the issues to close point or more higher were Pan-American A and B, General Asphalt, Marland and California Petroleum.

Speculative belief that the rubber and tire companies will benefit materially from the record-breaking motor car production brought forth fresh buying power into that group. Kelly Springfield leading the advance with a gain of 3 1/2 points. United States Rubber, Goodrich, and Lee closed 1 1/2 to 2 points higher.

Independent steel and equipment shares also made good recovery, net gains of 1 to 2 points being recorded by Gulf States, Bethlehem and Crucible steels.

Baldwin, American and Lima locomotives, Pullman, American Car and New York Air Brake. Similar progress was made by Chandler, Studebaker, Stewart-Warner, Stromberg, Carburetor, Willys-Overland preferred, Mack Trucks, American Woolen, International Paper, Associated Drygoods and Otis Elevator.

No explanation was forthcoming for the 5 point drop in American Express, current earnings of which are reported to be satisfactory. Jersey Central broke 9 points on two sales. Other rail shares showed mixed changes.

Call money opened at 5 per cent, eased off to 4 1/2 during the noon hour, and thence to 4, where it closed. Short term loan were arranged at 5 1/4 per cent but bankers are still holding at 5 1/4 for the longer maturities. Commercial paper was in fair demand with prime names selling at 5 and 5 1/4 per cent.

Foreign exchanges held fairly steady around yesterday's final rates. Demand sterling eased 1/4 of a cent to 14.65 1/4 in the late dealings and French francs advanced 2 1/2 points to 6.65 1/2 cents. Silver exchanges showed marked improvement.

Day's total sales 726,000 shares. Twenty industrial averages: 101.71; net gain, .63. High, 1923, 105.38; low, 96.96.

Twenty railroads averaged 42.29; net gain .01. High, 1923, 80.42; low, 84.53.

Minor Changes  
(By A. P. Night Wire)  
NEW YORK, April 12.—Bond prices moved irregularly in today's relatively dull market. The trend was uncertain and changes generally were unimportant. Active United States government bonds showed firmness, but fluctuations were small. A foreign government loan closed at prices changed but little from yesterday's quotations. There was some activity among the steel and sugar companies. Punta Alegre Sugar 7s advanced 2 points and Brier Hill Steel 5 1/2s 2 1/2. Union Bag and Paper 6s were up 1. Trading among the railroad mortgages was irregular. The changes, except a 2-point drop by Hudson and Manhattan income 6s, being confined to fractions. Management of the Missouri, Kansas and Texas Railroad Company announced that on and after tomorrow it would make interest payments due during the past few weeks on the following obligations:

Katy first mortgage 4 per cent bonds; Missouri, Kansas and Oklahoma first mortgage 6 per cent bonds; Booneville Railroad 4 per cent mortgage bonds and Dallas and Waco first mortgage 5 per cent bonds, and would pay also the coupons due February 1, 1923, on Kansas City and Pacific Railway first mortgage 6 per cent bonds.

## My Offices Will Be Closed All Day Saturday

April 14th, out of respect for the late Dr. Jules F. Roth, father of J. H. Roth, who has been closely associated with me in my work for the past six years.

Funeral services will be held Saturday morning at 11:00 o'clock at the Hollywood Mausoleum.

## C. C. JULIAN

321-25 Loew's State Theater Bldg.

Seventh and Broadway

Los Angeles, Cal. Phone 824-539; 824-906

My Long Beach Office is at 115 American Avenue.

My Pasadena Office is at 814 Security Building.

Phone Fair Oaks 794.

## Big Ventura Oil and Development Company Stock Selling for \$1.00 Per Share

A CALIFORNIA corporation with 200 golden acres in a field of high gravity oil of paraffin base. Oil in this field brings about \$4.00 per barrel on the land.

Make haste and buy all this stock you can, while you have the chance.

Make all checks payable to the Big Ventura Oil and Development Company, 623 Story Building, Los Angeles, California.

Full details upon request

## We Said They'd Go Like Hot Cakes and THEY DID

Real Royalty bargains in the 19 acres at Santa Fe Springs, about which the town has been talking for the past month.

We offered them yesterday in denominations varying from \$500 to \$30,000. Buyers flocked to our office—hundreds investigated—many invested. It was the first time the man who could spare only \$500 had a chance to buy a real royalty, in a real property of real size.

Every class of investor—oil men bankers, retired capitalists—all took to them like ducks to water.

There Are Some Left for Sale This Morning

If you hurry—if you come in early today and bring your pocket book with you ready to buy—you will not be disappointed.

## JUST GET THIS

These interests share in (100%) all of the oil from all of the wells ever drilled on all the nineteen acres that adjoin Julian 4 and 5 on the east, the Russell on the south, the Associated Oil Company on the north, and the Standard Oil Company on the west.

That ought to be enough for you — especially when you know you're going to get paid through a bank each 30 days for your definite fixed part of all the oil and that you pay no part of drilling or operating expenses.

## HERE'S WHAT YOU CAN BUY

1-80th of 1% .....	\$ 550.00	1-5th of 1% .....	6,500.00
1-40th of 1% .....	1,000.00	1-3rd of 1% .....	11,000.00
1-20th of 1% .....	1,900.00	1/2 of 1% .....	16,000.00
1-10th of 1% .....	3,500.00	1% .....	30,000.00

Come to the office with your check, because you'll want to buy. If you live outside the city—wire or phone your reservation, letting check follow by mail.

## A. E. WRIGHT

322 A. G. Bartlett Bldg., 7th and Spring

Telephone Pico 1151 or 823-160

## Traders Take Grain Profits; Prices Decline

(EXCLUSIVE DISPATCH)

CHICAGO, April 12.—Grain markets developed a reactionary tendency under heavy profit-taking after July and September wheat and corn had sold at a new high for the season and all deliveries of corn were in new ground. The market saw big bond offers with individual speculators mounting for little. Many local and outside buyers agreed that the help had been too rapid to hold and add freely, making the finish for corn to be lower on wheat, unchanged to 1/2¢ lower on corn, 1/4¢ to 1/2¢ lower on oats and 1/4¢ to 1/2¢ higher on rye, the latter showing independent strength.

Wheat news had no bearing on the wheat market. There was a little pressure at the wheat market from long, but the conditions were very firm and a resumption of free buying of July and September by commission houses started values upward again, and at the top July closed 1/4¢ higher than the low of last week. The market was a little more active than it had been for some time, but the conditions were very firm and a resumption of free buying of July and September by commission houses started values upward again, and at the top July closed 1/4¢ higher than the low of last week.

Cash interests continue to change over hedges from May to July and the difference narrowed to around 1/4¢ at the last. The market was a little more active than it had been for some time, but the conditions were very firm and a resumption of free buying of July and September by commission houses started values upward again, and at the top July closed 1/4¢ higher than the low of last week.

Outside trade in wheat is not sufficiently large to permit extensive profit-taking without considerably influencing values. Weather conditions were more favorable and nothing to make a big profit in the Central West. Minneapolis reported 200,000 bushels of wheat sold for export, which were replaced by fresh purchases from the country. Receipts, 50 cars.

Following are the open, high, low and closing quotations: Corn, High, Low, Close. May, 1.35, 1.35, 1.34, 1.34. July, 1.35, 1.35, 1.34, 1.34. September, 1.35, 1.35, 1.34, 1.34. Oats, High, Low, Close. May, .65, .65, .64, .64. July, .65, .65, .64, .64. September, .65, .65, .64, .64. Rye, High, Low, Close. May, .85, .85, .84, .84. July, .85, .85, .84, .84. September, .85, .85, .84, .84. DEATH NET  
TIGHTENED  
ON SUSPECT

Witness in Dabulich Case  
Tells of Queer Actions of  
Assorted Slayers

Queer actions of W. R. Kries,  
alias Russell Walker, for several  
days after the murder of Nick F.  
Dabulich were described on the wit-  
ness stand yesterday, at the trial  
of Kries and of Forrest Cecil  
Mingle, by Mrs. Nellie F. Alford,  
at whose home the youthful asser-  
ted murderer roomed.

WOMAN ROBBED  
IN BOLD HOLD-UP

A solitary hold-up man who took  
advantage of crowded traffic con-  
ditions of the noon hour yesterday,  
jumped on the running board of a  
machine driven by Mrs. Fannie  
Newman of the Savoy Hotel at  
the intersection of Sixth street and  
Occidental boulevard, and com-  
pelled Mrs. Newman to pistol  
point to hand over diamonds val-  
ued at \$2000.

FEDERAL PRISON  
DOORS YAWN FOR  
CONVICT PARTY

A cosmopolitan assemblage of  
tourists, bent on seeing the inside  
of the Federal penitentiary at San  
Quentin, left for the north last  
night in the custody of Deputy  
United States Marshal Henry Law-  
ler and pouch.

PHOTO STIRS SPIRITUALISTS

Appears on Plate Exposed in Church Where  
Woman Said She Would Come After Death

When spiritualists in Los Angeles and expert photographers  
were baffled in the strange phenomenon of an  
apparition plate mapped in the First Spiritual Church at Twenty-  
second street, before the altar at which recently was con-  
secrated the body of Mrs. Mary Fairfield McKiever, who had requested  
her funeral at which she would come after death.

REALTOR FACES TRIAL  
ON CHARGE OF LARCENY

A. H. Hoffman, a real estate agent,  
was arrested yesterday on a charge  
of larceny and lodged in the County  
Jail in default of \$1000 bail.

CHAMBER HEARS RAISIN PLEA

San Joaquin Growers Ask Trade Tourists to Give Sup-  
port to Sun Maid Association

BY L. D. HOTCHKISS  
"Times" Staff Correspondent  
FRESNO, April 12.—"We need your material assistance" was  
the message of San Joaquin Valley Raisin Growers to members of the  
Los Angeles Chamber of Commerce sociability tour here today, and the  
reply was assurance that Los Angeles capital would support any move-  
ment to save the California raisin industry.

EBELL IS TOLD OF MEXICO

Spanish Section Members Hear True Status of Country  
to South from Prominent Citizens

BY MYRA NYE  
A deep international significance as to the relations between the  
United States and Mexico was the unexpected climax of the program  
of the Spanish section of the Los Angeles Ebell Club yesterday.

PLANNING  
CATALINA  
BUILDINGS

Stores, Apartments and  
Bath House to Be Erected  
for Mrs. Wrigley, Jr.

Arrangements are being com-  
pleted for the erection of a group  
of buildings for Mrs. William  
Wrigley, Jr., on Catalina Island, a  
short distance from Avalon, that  
will entail an approximate ex-  
penditure of \$500,000, according to an  
announcement made yesterday by  
Architects Webber, Staunton and  
Spaulding, who are preparing the  
working drawings.

LEASE VALUABLE PROPERTY

An important realty transaction, involving considerable frontage  
on West Seventh street, was announced yesterday by Metcalf & Ryan  
local realtors, who have taken a 99-year lease, for their own account,  
at the southwest corner of Seventh and Burlington streets. The deal  
will involve the payment of an aggregate rental by Metcalf & Ryan  
of \$1,500,000.

## SEARCH FOR VETERINARY OPENS HERE

### Bay City Attorney Offers

### **About Brother**

attorney, yesterday arrived in Los Angeles to conduct in person the search for his brother, James C.

son of the Bay City, who married a woman of the same name on January 21, last. Mr. Quinlan came here to work on a clue that a Dr. Quinlan had registered at Hotel Rossmore February 8, but after finding the signature, Mr. Quinlan declared that the writing was not that of his brother.

The disappearance of Dr. Quinlan has been one of the deepest mysteries in the city since the records in San Francisco. No trace of the missing man, nor of the roadster in which he was riding, has been discovered. The \$5000 reward offered by Mr. Quinlan for information leading to the recovery of his disappearance, will remain standing. Mr. Quinlan said he was in the city.

Dr. Quinlan was supposed to have been seen at the city hall at midnight. He had been at a dinner party with Clara B. King, president of the San Francisco Steamship Company, and others.

which lasted late in the evening. Mr. Quintin was the victim of foul play," Mr. Quintin declared. "He never reached home after departing from members of the dinner party. He had been in the room for some time known to have any mental trouble. There are large sums of money in local banks in my brother's name which have never been cashed. I have no information I have been able to gather, he had between \$300 and \$400 with him when he disappeared. I have traced down all the clubs the Los Angeles area, but the last I have been able to find."

Mr. Quintin is described as being 45 years of age, five feet, nine

**Girls' Wash Dresses \$3.95**

100 New White Dresses for Now, at the Brink of Spring.

—The cunning "butterfly model" which Bullock's has sponsored so successfully—it is the style which girls are wanting.

—These new white dresses are of cross-bar muslin, round neck, short sleeves, long waistline, self material sash, and full cut bloomers.

—Trimmed in outline stitch and neat design in color.

—Sizes 6 to 12 years—\$3.95. See them Friday and Saturday morning at—

—The Girls' Store, Bullock's Fifth Floor.

**Regulation School Clothes**

—And kindred types of clothes in extensive selection at Bullock's.

—Middies, Skirts, Ties, Regulation Dresses, Outing Apparel, Khaki Play Dresses—in the Regulation Section, Bullock's Fifth Floor.

**Girls' Sweaters at \$2.95**

**Take Prominence**

—Prominence because of their attractive price—it is a pleasure to buy such as these—at \$2.95.

—Prominence because of their number—they should offer selection enough for the most exacting.

—Prominence because of their clever, wanted styles: One a sleeveless model (the latest vogue); another a Balkan Blouse type; another a straight line style.

—Prominence because of the wide selection of colors included.

—And prominence because they are the type of thing which girls want to wear to school.

Sizes 6 to 14, \$2.95

—Girls' Sweater Section, Bullock's Fifth Floor.

**1200 Pairs Children's Lisle Half Sox Are Priced 25c Pair**

—Lots of socks, isn't it? Perhaps that is why they can be 25c pair.

—Beautiful half socks—all fine quality—with double heels and toes—just the kind of sock which mothers like to buy for children.

—White with fancy cuffs; some have fibre cuffs; some are in all plain colors. Sizes 5 to 9 1/2.

—Friday and Saturday morning—25c pair. Bullock's Fifth Floor.

**Boys' Wash Suits \$2.85, A Feature, Bullock's Boys' Store**

—A feature which is making Bullock's Boys' Store the rendezvous for mothers of small boys.

—For mothers far and wide are coming to know that Bullock's Wash Suits are excellent values at \$2.85.

—Materials: Kiddy Cloth, Peggy Cloth, Repp, Poplin and Sail Cloth.

—Colors: Cadet Blue, Navy, Tan, and White—also combinations of blue and white, and tan and white. All fast colors.

—Styles: Middy, Button-on and Novelty.

—Sizes 2 1/2 to 10 years. \$2.85—The Boys' Store, Bullock's Fifth Floor.

**Bloomer Dresses for Wee Girls, at \$2.95**

—of Gingham—pink, blue, red and green—checked or plain—trimmed with organdie ruffles and touches of hand embroidery. Sizes 2 to 6 years.

**Clever Little Suits for Boys, 1 to 4 yrs. \$2.95**

—White, blue and gray sailor type suits. Also dainty suits for boys in poplin—pants of pink, blue or maize with white waists.

—Infants' and Children's Wear, Bullock's Fourth Floor.

**Boys' Keds**

—These styles are particularly for boys—and men.

—However, "Keds"—the nationally known sportswear shoes, come in styles for girls and women as well.

—A complete showing of "Keds"—at Bullock's.

**"The Meteor"**

—A lace-to-the-toe model for boys. White canvas with black rubber soles and trimmings. Non-skid soles. Sizes 2 1/2 to 6, \$3.50; sizes 6 1/2 to 10, \$4.00.

**"The Merit," \$2.50**

—Sports shoes for boys—with athletic trim. Made of strong canvas with brown soles and trimmings and brown ankle patch. Sizes 1 to 6—\$2.50; sizes 6 1/2 to 10—\$2.75.

—The "Corner of Keds"—Bullock's Fifth Floor Shoe Section.

**Children's Oxfords**

—Two-tone sports oxfords for small children.

**\$2.25**

—White nubuck with green or red calf trimmings—well soles.

—Sizes 8 1/2 to 11 Only

—So low priced (considerably reduced, in fact) because only 150 pairs remain—and a quick clearance is desired.

—Bullock's Fifth Floor Shoe Section.

**Coaster Wagons \$6.95; \$8.45**

—Prices which represent considerable reductions.

—Bodies of the wagons are of seasoned and kiln dried lumber, bolsters are heavy maple sanded and varnished, giving them a very smooth glass-like finish.

—They have retained roller bearing disc wheels with large rubber tires—also a roller brake.

—Size 14x32 inches, \$6.95.

—Size 14x34 inches, \$8.45.

—Friday and Saturday Morning—Bullock's Fifth Floor.

**\$1.00 Toy Garages**

—One of the most popular, inexpensive toys which Bullock's has recently featured.

—350 remain. For clearance, they are priced \$1.00.

—A 6x8 metal garage with 2 mechanical autos equipped with long running spring motors.

—Bullock's Fifth Floor.

COURAGE OF THE RAISIN GROWER

That the pioneering spirit that has made California a desert waste and the home of a few tourists into a productive empire is still carrying this great commonwealth forward to greater and greater achievement is demonstrated by the heroic action which the raisin growers of the San Joaquin Valley are taking to save their industry. Faced with a situation which meant either economic chaos in the Central San Joaquin Valley or of reversion to the status of a desert waste, the raisin growers have answered the challenge with a campaign which has for its purpose the placing of one of the largest co-operative marketing organizations upon a sound economic basis for many years to come.

The raisin grower would delight in the history of the California raisin industry. Raisin grapes were first introduced in California in 1851, but it was not until 1873 that the crop gave promise of becoming a commercial agricultural crop. In other words, 1873 is the Golden Jubilee of the California raisin industry. Until about 1890 the industry was so small as to be of comparatively little importance.

Then for twenty years the story is one of struggle on the part of a group of raisin pioneers against almost insurmountable obstacles. Year after year crops were produced and sold under the cost of production. Competition with the Spanish crop, unorganized marketing conditions and the fact that the raisin was only a specialty product were all gradually bringing disintegration to the industry, until in 1912 the producers formed the California Associated Raisin Company, later known as the Sun-Maid Raisin Growers, which brought prosperity out of an almost hopeless situation.

For the past ten years the raisin crop has steadily expanded until today Fresno county alone produces more raisins than any country in the world outside of the United States. But the history of this association is the history of every new industry in the United States. As the size of the crop increased and as markets were developed it was found that the co-operative organization had certain elements of weakness, among which were lack of working capital for the carrying on of the industry, which was three times as large in 1922 as it was in 1912. As a result, due largely to the efforts of such men as Wylie M. Giffen, president of the association, and Ralph F. Merritt, formerly food administrator of the State of California and now managing director of the Sun-Maid Raisin Growers, a plan of reorganization has been effected which promises to solve the major problems of the industry.

The association of growers will be continued as a strictly co-operative organization, its prime function being the amalgamation of the individual growers into a marketing unit. This company will purchase the crop of the growers and arrange for its sale and distribution with all the advantages accruing from unified control of the crop. Side by side with the growers' association will be another company, commonly known as the Sun-Maid Raisin Growers, which is an amalgamation of capital in support of the growers' association. This company will own and operate, under the supervision of the growers' association, the manufacturing plants. It is a stock company which is in a position to take care of future financing and is arranged so as to handle the financial situation after trial and accepted lines. The two concerns are so organized as to prevent any change that the growers' organization might be engaged in any activities not in accord with co-operative marketing laws of the United States government.

In other words, the organization under the present plan provides for both the co-operation of individuals and the co-operation of money in the orderly marketing of one of California's largest crops, with an annual value of approximately \$100,000,000. The extent and importance of the industry at this time are well evidenced by the fact that the California raisin crop, which amounted to approximately 750,000 tons in 1922, totaled approximately 225,000 tons in 1921 and is expected to reach the unprecedented total of approximately 400,000 tons in 1923 or 1924.

The accomplishments of the old association have been almost unbelievable. In a short period of ten years they have turned the raisin crop of California from a specialty crop to a staple item of commerce. They have extended the limits of the markets for the California crop from the territorial boundaries of the United States over the entire globe, so that today the California raisin crop may be purchased in Canada or Chile, in England or India, in China or Africa. They have created standardization of brand and quality. They have brought prosperity to a land in which there were only despair and potential bankruptcy. The financial situation, due to the increase in the size of the crop, credit conditions and the necessity for adjustment to post-war conditions, has caused the old association to reach the place where, without some means of reorganization, disintegration stared the industry in the face. With the true California spirit this potentiality was not allowed to become a reality and the raisin growers of this State are now uniting to snatch victory from defeat and place this industry upon a solid foundation for years to come, through the adoption of tried and true principles of co-operation.

BOSS'S EXPERIMENT

Sir Jagadis Chandra Bose, Hindu scientist, has invented an electrical machine which registers delicate impressions never before susceptible of observation. With this machine he has detected invisible waves of feeling, caused by a variety of stimuli, not only in the lowest forms of animal life, but even in plants and vegetables.

Many scientists who have witnessed the experiments admit the wonderful way in which the machine works. The deflection of the needle, caused by spasmodic nerve impulses, is very marked in the case of worms or jellyfish or sponges; it is just as marked when a carrot or an apple is cut or bruised or mistreated.

Bose with this machine claims to prove that vegetables not only have the same life as animals, but also the same feelings and sensations. Take the humble carrot, for instance.

When a carrot is withdrawn from the earth it is deprived of its sustenance and starts to starve, just as a man would if cut off from his daily food. But it is still alive, and it cut or crushed at this stage

PAY DIRT

BY FRED ROGUE

The fault of Napoleon and some who have come after him was to think that France is made for the army instead of the army for France.

Extreme wealth, extreme misery and idleness are three prolific sources of unrest and crime.

The right to the peaceful possession of what one has honestly and lawfully acquired is inalienable; but those who insist that it is a sacred right will find some difficulty to refute the rejoinder that the misdeeds of the poor are more sacred than the opulence of the rich.

Most of those who follow the races are a long ways behind.

A doctrine should be judged by the acts that proceed from it, not by the professions of its sponsors.

THIS IS THE DAY

Thomas Jefferson was born in his father's farmhouse at Shadwell, Albemarle county, Va., in the year 1743. Jefferson was born of study English ancestors belonging to the landed-proprietor class. He was graduated from William and Mary College in 1762. Ten years later he married Martha Skelton, a wealthy widow. He practiced law and at the age of 27 entered public life; was elected Governor of Virginia in 1779. Jefferson was selected to make the first draft of the Declaration of Independence. In 1800 he was elected President by a decision of the House after a tie vote with Aaron Burr. He was overwhelmingly re-elected in 1804. Jefferson was in Paris at the outbreak of the French Revolution, where he absorbed radical principles that colored his political views in after life. He died on the family estate, Monticello, in the year 1826.

The Pennsylvania Railroad was organized in the year 1846. First patent for an air brake was issued to George Westinghouse in the year 1869.

SCIENCE

E. BUTTON

MENTS OF FISHES  
caused by pulsations in the  
portions of the body wall. The  
he crude circulatory system of  
worms fishes added a heart, which  
is clearly a fish invention. It was  
only a two-chambered heart, it was  
true, yet any kind of a heart was  
better than none. Certainly fishes  
could not have inherited hearts  
from ancestors which had hearts  
or could they have acquired  
hearts from higher creatures?  
Worms have no limbs, no skulls,  
no gills, no scales, no brain,  
no spinal cord, no specialized sense  
organs (except for feeling) and, as  
all these parts appear in fishes,  
must credit fishes with their  
evolution. Microscopists believe  
they can detect in worms the begin-  
ning of fins and that cer-  
tain internal organs of fishes may  
have been foreshadowed in worms,  
but there is one internal organ in  
fishes which had no beginning in  
worms—the air bladder. This or-  
gan exists in all kinds of fishes  
and in no higher nor lower  
animals. It is a sort of balloon  
within the lower front part of the  
body, which a fish can fill with air  
or exhaust through the mouth or  
will, thereby increasing or light-  
ning its specific gravity in water.  
When the balloon is filled with air  
the fish can rise easily, whereas it  
can dive better when the air is  
exhausted. A valve, like the valve  
of the heart, controls the inflow  
or output of air, which the fish can  
open or shut just as it opens or  
shuts its mouth. The greatest dis-  
ference scientists have ever dis-  
covered among all species of fishes  
is to do with this organ. Pe-  
ruda fish has been found, named  
"peruda," which uses the air blis-  
ter, when streams dry up, to  
breathing purposes. So far as  
shape, scales, fins and gills are  
concerned the air bladder is com-  
mon to all fishes. The air blis-  
ter, as it is commonly called, usu-  
ally resembles a large salmon; but  
when the marishes begin to dry  
up, while other kinds of fishes are  
perishing, the peruda fish rapidly  
fills and empties its air bladder,  
making this queer organ perform  
exactly the same function which  
in land animals is performed by  
lungs. That the further develop-  
ment of this organ finally enables  
water-born creatures to emerge  
and live upon the land will be  
shown in the next article.

All that readers are asked to re-  
member about the Age of Fishes is  
covering millions of years, and, first,  
that fishes generally—the  
whole race of marine vertebrates—  
acquired every organ that we find  
in land animals, that they inhaled  
through gills and exhaled through  
gills; and, second, that at least  
one species found a way to sur-  
vive—survived by using their  
air bladders as lungs.

A CUSTER SURVIVOR

A survivor of the famous Custer  
massacre has been unearthed  
through the Pension Bureau. It  
was announced in Washington  
that the Shoshone Indian, who  
lives in the Crow Indian Reservation  
in Montana, and is drawing a pen-  
sion from the government for ser-  
vice in the Indian campaign of  
1876 and 1877. Recent investi-  
gation of his case resulted in a  
pension certificate being issued  
in his favor after he presented proof  
that he was an Indian scout with  
Col. Custer when he fought against  
the Northern Cheyenne and Sioux  
Indians.

The official records of the  
Department show that this  
Shoshone Indian, who was  
a private April 10, 1876, and  
September 30, 1876, at Ft. Ke-  
mont, by reason of the  
of the detachment of Indian  
command arrived at the  
of Indian disturbances, six  
were detached to accompany  
command. They participated  
the attack of the Sioux in  
the valley of the Little Big River  
June 25.

"On the morning of the 26th  
so the War Department re-  
"three of the scouts who had  
with Col. Custer were found  
fourth Crow who left the  
Custer's fight, named Crow,  
actually with the scouts  
the battle. Crow was  
fighting with the Sioux and  
and returned to his  
June 30."

According to the records  
Crow Indian agency, Montana,  
ly was born in 1854, he  
served under Custer and has  
distinction of being the only  
vivor of the "Custer massacre."

ETCHERS  
An etcher humbly am I  
As compared with you.  
Whilst I—  
When inspired—  
Pierced  
The wax and resin  
On my copper plate  
And reproduce but  
Blunderingly  
That which I see—and  
Love  
And with add too a  
Deep into the center  
To make impressions  
Under pressure  
On perishable paper  
For understanding souls  
To glean  
Some of the Love that  
While you—  
Make an incomparably  
Etching.  
A Cosmic etching.  
Your eyes pierce  
With ease  
My soft, sensitive heart  
The "soul" of your  
Corrodes me against live  
Metal detector  
The press of your lips  
Imprints imperishably  
Your inspiring labors  
So creatively conceived  
Into my soul  
To glow ever  
In its eternal memory.

PLEDGE AID TO  
HARBOR BONDS

Fifteen Organizations Give  
Unqualified Backing

Means of Revealing Necessity  
Are Discussed

Committee to Fire Opening  
Gun Is Named

Pledging unqualified support to  
the Chamber of Commerce in any  
effort which that body may make  
toward the submission of an ade-  
quate harbor bond issue to the  
voters at the June election, prom-  
inent representatives of fifteen  
civil and commercial organizations  
of Los Angeles met at the Stowell  
Hotel yesterday to discuss means  
of informing the people as to the  
necessity for immediate harbor im-  
provements.

The meeting was called by the  
committee formed at the request  
of the Finance Committee of the  
City Council and the Harbor Com-  
mission, the latter body having  
agreed to support a bond issue of  
\$15,000,000, the former having de-  
clared itself in favor of an issue  
of bonds adequate to meet the  
chief requirements of the next two  
years, yet without stipulating the  
amount.

SUPPORT PLEDGED  
Following a two-hour session the  
committee, composed of E. G.  
Judah, chairman, and F. J. E. Har-  
mon, John Reid and Willis Owen  
of the Commercial Board, was in-  
structed to write to W. F. Bishop,  
president of the Chamber of Com-  
merce, asking him to bring the  
matter of a bond issue before the  
chamber and pledging the support  
of various commercial organiza-  
tions.

Among those present yesterday,  
majority of whom favored a  
\$15,000,000 bond issue for harbor  
improvements, were J. M. Ford,  
president of the Transportation  
Club; Maurice Carasso, president  
of the World Traders; W. W. Mead,  
representing the Foreign Trade and  
Harbor Committee of the Chamber  
of Commerce; Mrs. Oda Faulkner,  
president of the Soroptimists Club;  
J. S. Joplin, manager of Better  
America Federation; Tom Ingersoll,  
secretary of the Realty Board; W.  
V. Grether, representing the Dry  
Goods Association; Miss Florence  
E. Banks, president of the Los  
Angeles County Federation of  
Business and Professional Women's  
Clubs, and Councilmen Mal-  
lard and Criswell.

Letters favoring a large bond  
issue were read, the messages com-  
ing from many from prominent clubs  
and societies, among them being  
the Rotary Club, the Optimists'  
Club, Merchants' Association, Mer-  
chants National Bank, Independent  
Petroleum Association, Lumber  
Dealers' Association, Chamber of  
Mines and Oils, American  
Legion, Real Dry Goods Asso-  
ciation and the Electric Club.

Councilman Criswell said that  
the Finance Committee had asked  
for more specific data on the  
manner of proposed expenditure  
for harbor improvements. He said  
that the bond issue should be kept  
as low as possible because of the  
vast sums which will be necessary  
for other improvements during the  
next two years.

FAST SUMS NEEDED  
Citing the proposal of bond is-  
sues for \$7,500,000 for the new  
City Hall, the \$400,000 for the Li-  
brary Board to acquire the Flower  
street frontage, the \$1,000,000 for  
the city's share in the bridge build-  
ing project, \$1,000,000 for a City  
Jail and Receiving Hospital, Mr.  
Criswell added that the people  
will probably be asked for \$25-  
\$30,000,000 for the Bureau of Power  
and Light.

"And it will require that \$25-  
\$30,000,000 to complete the program  
of the Bureau of Power and Light,"  
said Councilman Criswell. "We  
should have that amount or noth-  
ing, for it would be foolish to  
spend \$15,000,000 or \$20,000,000  
on power plants with no assurance  
that the transmission lines could  
be completed."

Mr. Criswell said that the peo-  
ple have always voted in favor of  
harbor bonds, but he requested  
that the Harbor Commission pre-  
sent a definite program of expendi-  
ture and show the Finance Com-  
mittee and the people how much  
of the interest and sinking funds  
will be paid yearly from harbor  
revenue on outstanding bonds. He  
said that the Bureau of Power and  
Light is paying all interest and  
sinking funds as they become due.

Mr. Mallard said that he will  
support any bond issue necessary  
for the development of the har-  
bor, up to \$10,000,000, but that he  
does not wish to see an unneces-  
sary amount placed on the June  
ballot.

Harbor Commissioner Richards  
stressed the need for immediate  
improvements of the harbor on a  
large scale, saying that every  
month of the present year had  
shown double the amount of har-  
bor business done in the banner  
month of last year. Last month,  
he said, more than one and one-  
third millions of gross tonnage  
was handled at the harbor, and  
that it is estimated that the year's  
tonnage over the tonnage of last  
year will be increased by about  
1,000,000 tons.

Estimating that \$5,000 addition-  
al linear feet of wharf will cost  
\$20,000,000, Mr. Richards said that  
even if that amount is actually re-  
cut in half, at least \$10,000,000  
will be required for wharf facili-  
ties alone.

"I do not see how we can pos-  
sibly meet the present needs with  
less than \$15,000,000, and even  
then, we will have ships waiting  
outside the harbor," said Mr. Rich-  
ards.

OTHER NEEDS CITED  
F. Gregson of the Associated  
Jobbers' Association pointed to the  
need for adequate railway exten-  
sions to keep pace with harbor im-  
provements, saying that a part of  
the proposed \$15,000,000 bond is-  
sue should go toward the business  
of handling the freight after its  
arrival at the docks.

**SPANISH CRAB MEAT**

## IN RAMEKINS

1 cup tomatoes, canned or fresh  
1 lb of hot lead  
Small stalk celery  
Sprig of thyme  
1 slice of onion  
2 tablespoons butter  
2 tablespoons sour  
2 tablespoons green pepper,  
chopped  
1 egg yolk

1 cup crab meat (canned or fresh)  
1 teaspoonful salt  
1 teaspoonful paprika  
2 1/2 cups grains of cayenne  
1 cup of Borden's Evaporated  
milk  
1/2 cup water  
Boiled rice  
Red and green pepper for garnish.

with the bay leaf, celery, onion, and thyme for fifteen minutes. Rub through the strainer. Melt the butter, add the green pepper, and cook three minutes without browning. Add the flour and when smooth

and the strained tomato are  
bring to the boiling point. Add  
the evaporated milk diluted  
with the water (reserving one  
tablespoonful). When it again  
boils, add the slightly beaten  
egg yolk, to which has been  
added the tablespoonful of the  
diluted milk, and also the cr

meat, and seasonings. Cook five minutes. Put one tablespoonful of boiled rice into each buttered ramekin, fill with cranberry mixture, and heat very hot in the oven. Garnish with red and green peppers, cut diamond-shape.

Mrs. Wm. H. Martin,  
Pasadena, Calif.

**TAMALE CHICKEN PIE**

1 chicken (3 pounds dressed)  
6 cups of stock from chicken  
1 teaspoonful paprika  
1 teaspoonful chili powder  
1 teaspoonful salt  
cup olive oil  
cup butter & evaporated milk  
1/4 cup corn-meal

Cook chicken, well covered with hot water, until very tender, adding more water as it boils away. Remove the skin and bones and cut the meat in small bits, adding the light oil

the stock or broth from the chicken, add the chili powder, paprika, and salt. Bring to a boil, sift the corn-meal, and add it very slowly, stirring the mixture until it is smooth. Add the milk and cook until it is thick enough to serve. *—Lester, Food & Wine*

enough to drop from a spoon readily. Lightly fold in the olives and chicken. Have ready well greased baking dish and bake twenty minutes in a moderate oven. Serve with cream sauce.

- 1 tablespoon butter
- 1 tablespoon flour
- 1/2 teaspoon salt
- 1/2 teaspoon milk powder
- 1/2 teaspoon onion, finely cut up

Melt the butter and add the flour. Stir until smooth. Add the chili powder and salt. Pour in the milk diluted with water stirring until it thickens. Add

the pimenton. Cook five minutes longer and serve hot with the tamales pie.

### COAST RIVALRY HIT BY EBERLE

Admiral Says Selfishness of  
Cities Blocks Defense

Declares Ports Should Have  
What Suits Them

American Legion Is Praised  
by Gen. Lejeune

Rivalry between cities on the Pacific Coast for location of branches of naval operations is seriously hindering furtherance of the program for national defense, Admiral Eberle, commander-in-chief of the Pacific Fleet, declared in an address to American Legion representatives from all parts of Southern California, at the City Club last night.

Admiral Eberle's request that the American Legion take upon itself the duty of seeking co-operation and co-ordination among Coast cities in behalf of national defense was received by the legion representatives with approval.

"Los Angeles Harbor is going to be the home of the Pacific Fleet for the greater part of the year," Admiral Eberle said. "The harbor has the advantage of offering a desirable location for operations, for drill work and target practice."

Local rivalry between coast cities has been evidenced in national politics and has made useless the efforts of the naval officers, who have studied the defense program for years and who know more than any one else the advantages offered by ports, he declared.

"Each port will have what it is suited for if the Navy is allowed to use its experience in selection," Admiral Eberle said. "The Coast cities should forget their selfish desires and work in unison on a defense program, for the Western Slope. That is the only way in which a logical defense can be worked out."

The speech was the first to be made by the Admiral since returning from the 7800-mile cruise to Panama, where the Pacific Fleet carried away honors of battle from the Atlantic Fleet.

Admiral Eberle had been invited to address the Legion the day before by radio, aboard his ship miles from Los Angeles. He named in his remarks aimed at the national defense program long enough to pay the Legion compliments for its aid to former service men.

As no other agency could possibly have done, the Legion has kept the spirit of comradeship alive and will continue to do so," the Admiral said. "There is a necessity for the Legion and I hope that it will take upon itself the duty of helping us further the defense program of the West Coast and help increase battle efficiency."

Commenting on the recent cruise of the Pacific Fleet, Admiral Eberle said that a cruise twice a year should be made, that the Legion has helped to make the men take things more seriously and keeps the spirit of the men high, he said.

Honors carried off by the Pacific Fleet of last year in marksmanship records will likely be repeated this year, the Admiral declared.

Admiral Eberle's commandant, however, the United States Marine Corps, who is the only marine officer having the honor of having commanded a regular Army division, being in charge of the Second Division during the war, made a short talk before the Legion.

"As times go on, I am stronger for the American Legion," he said. "The country needs the point of view of the man who saw service. The problems of the ex-service man cannot be solved as individuals, but must be attacked collectively. The work of the Legion for disabled service men is enough to justify the organization's continued life. But there are many other reasons. Go, help the country which forgets its ex-service man."

The Legion came in for praise, worthy remarks also from Col. Tom W. Miller, alien property custodian and close personal friend of President Harding. Congressman Linberger of Long Beach and Lieutenant Commander Eric Barr of the Submarine Base, who also told of the part played by the submarine in the national defense program.

### OAK KNOLL MAY GO TO VETERANS

Alien Property Custodian  
Favors Giving ex-Service  
Men German Estate

The palatial fifty-room mansion in Pasadena formerly owned by the German Baroness Rosa von Zimmerman will be turned over by the United States government to the Veterans' Bureau for occupation by either disabled ex-service men or women, if the recommendations of Col. Tom W. Miller, United States alien property custodian, receive a favorable reception in Washington.

Col. Miller's announcement last night of his plans concerning the property, referred to as a "white elephant" on the government's hands, brought cheers from American Legion representatives of Southern California, whom Col. Miller addressed.

"The government has been unable to get rid of the property," Col. Miller said, "and the chances are it will be years before a buyer can be obtained. The mansion contains more than thirty bedrooms with eleven baths. It would make an ideal place for the treatment of some of those who saw service during the war. Personally, I am in favor of turning it over for the use of women who were in the service. When I return to Washington I will make recommendations for the disposal of the estate, and will specifically state whether it would be advisable to turn the property entirely over for the use of women, or for men."

Col. Miller, who is a close personal friend of President Harding, has been in Los Angeles for several days inspecting property seized by the government. He will leave the city Saturday.

The Von Zimmerman estate is also known as the Oak Knoll estate. The original estate of the Baroness, who died in April, 1917, was valued at \$2,027,164.88. It was willed to relatives in Germany and was seized by the United States government shortly after the declaration of war, happening in the same month of the Baroness's death. Walter Haas, Los Angeles attorney, however, received \$45,000 from the will.

Belgians are de-  
to maintain their solidar-  
against any British ideas  
and economic life.

STAMP OUT  
hand put on the ar-  
the Ruhr and they will not  
revise the reparations  
but still want to Bar-  
Luther's proposals for sin-  
of its obligations.
